At the age of 26, I made the bold decision to leave home, sell all of my possessions, and purchase a one-way ticket to the United Kingdom. It was there that I found my true passion for code. My goal is to be a positive impact on as many people as possible in the limited time we have on this earth. Family is everything to me.

Skills

- Node
- Express
- HTML - HTML
- SCRUM
- FireBase

- Auth0
- Aws
- MongoDB
- PostgreSQL
- CSS - Sass - CSS Libraries

- React - Nextjs - Remix
- TypeScript - JavaScript
- Figma
- Trello
- Git

Projects

LetChat   Jan 2023

Technologies: Next, TypeScript, PostgreSQL, Firebase, Cypress, Jest, Tailwind, Sass, Figma, Trello.

- **Challenge:** Our team identified a real problem through market research and confirmed its existence. We aim to improve communication between landlords and tenants.
- **Teamwork:** Collaborated in a team of 6 to develop a full-stack application in 4 weeks using GitHub for source control and Trello to efficiently manage our workflow and daily tasks.
- **Solutions:** We build a centralised hub for communication, document storage, and secure access. We currently have been working on two more features coming in Spring 2023.
- **URL: www.letchat.co.uk**

Caimito - Sass Easy   Sep 2022

Technologies: React, JavaScript, Sass, Figma.

- **Challenge:** Caimito project is a personal endeavour aimed at simplifying the use of Sass while increasing options for customisation.
- **Usage:** This tool is well-suited for small to medium-sized projects that require a quick layout with scalability potential, implemented with 100% across three personal projects.
- **Solution:** To achieve this, a CSS library was born using Gulp.js for efficient compilation and making the file 60% lighter.

Work Experience

Trainee Full-Stack Developer   **Sep 2022 – Jan 2023**
School of Code | London

- **Challenge:** Complete an intensive full-stack development program using the MERN stack (MongoDB, Express.js, React, Node.js) focusing on agile methodology and test-driven development (TDD).
- **Teamwork:** Developed and deployed over 16 web applications using modern tools and technologies, including Git, Figma, Trello and Vercel, using cloud-based platforms such as AWS, Firebase and Render.
- **Initiative:** Build a space for practice and learning how to code. Currently, we have 20+ diverse members in the group available in Spanish.
- **Solutions:** Our Team built in a week "Bootcamp Buddy" Web application that allows individuals to track their progress and maintain their well-being.

Sabbatical   **Dec 2020 - Sep 2022**
Freelance | London

- **Challenge:** Economic downturn led to job scarcity, but I also saw an opportunity to acquire new skills and emphasised continuous learning to find success.
- **Initiative:** Actively sought remote opportunities in 3 areas, investment, tech, and social marketing, successfully applying for several relevant projects to expand my skill set.
- **Solution:** Enrolled in a coding school, achieving a 100% acceptance rate and becoming a part of the tech community and growing field.

Shift Manager   **Dec 2015 - Jan 2020**
Leon Restaurants| London

- **Challenge:** Overview supply chain, logistics and operational functions of the company by focusing on transportation, packaging, energy and water usage, staff treatment and community/charitable endeavours across 3 locations.
- **Teamwork:** Collaborated and Managed a 16-member cross-functional team with multiple successful checks from the Head Office.
- **Initiative:** Create a digital schedule to track and optimise staff productivity, accessible and editable by both management and employees, allowing for real-time updates and adjustments.
- **Solutions:** We Implemented an effective system for tracking and managing food and beverage inventory with a success rate of 98%.

Education and Courses

FreeCodeCamp   **May 2022 - Jun 2022**
JavaScript Algorithms and Data Structures

FreeCodeCamp   **May 2022 - Jun 2022**
Responsive Web Design

OpenClassrooms   **Feb 2022 - Mar 2022**
Discover Digital Market

Universidad Central de Venezuela   **Jan 2011 – Sep 2015**
Business Administration and Management
